## Course for Gymnasium entrance exam

This additional preparation for the Gymnasium entrance exam makes the children familiar with the sort of questions they may be asked and how best to answer them. These extra sessions also show the children how to approach them in behaviour and tactics.

The class work at Grade 6 in TAZ Horgen is more than sufficient to meet the required standards for the transfer to Gymnasium. We offer the advantage of small classes, differentiated lessons and half-class teaching.

It is for exam technique, specifically aimed at the German and mathematics tests, that we are recommending these additional lessons.

The lessons will be conducted by experienced teachers of Lern-Treff Oberrieden, who has 10 years experience of such courses. We believe that the combination of these courses with the normal class lessons offers optimum preparation for the exams.

## Registration

Child's Name: .....

### 10 math lessons

**Friday 28<sup>th</sup> October – 27<sup>th</sup> January, always from 07.45 – 08.30**
